Workforce Planning
What if you knew the impact of your talent decisions before you had to make them?

Are you experiencing a high degree of turnover of with your key people? Are competitive pressures and changing workforce dynamics forcing you to alter the way you operate your business? Are advances in technology making skills prematurely obsolete in your industry? Will the expected global skill shortages or the aging workforce expose your organization to significant risk?

Gaining insight into the consequences of your decisions upfront can make all the difference in your ability to execute your strategy effectively. What if you could...

• Forecast critical workforce demands, analyze where critical talent gaps lie, and then fill those gaps?
• Model the skills and competencies your organization needs to meet your future growth strategy?
• Quantify the financial implications of your strategic workforce planning decisions?

Build the foundation of your future success today
With SuccessFactors Workforce Planning, you can conduct sophisticated workforce modeling based on head count and hiring data, turnover rates, retirement age, and cost data to create strategies today that can ensure your organization’s readiness for the future.
